Victoria Conference Centre Presentation Stage

VIRTUAL & HYBRID MEETING SOLUTIONS

At the Victoria Conference Centre, we have partnered with Encore to offer a Presentation Stage in our 3,700sqft Lecture Theatre to host virtual & hybrid events. Leveraging a national team of expert technicians and state-of-the-art technology, this turn-key solution allows planners and presenters to broadcast with confidence. Our presentation stage comes with a complete technical setup so you can deliver your message with any online meeting platform*.

PRESENTER SUPPORT

- Comfort monitors
- Perfect Cue (slide advancer)
- Count down clock

FULL DAY \$7,400* 7-HOUR SESSION

MeetSAFE equipment cleaning protocols

When it comes to safety, our Encore MeetSAFE protocols have been put into place to ensure the safety of both your team and ours. All rooms are set up with proper physical distancing protocols and state of the art technology solutions. Heightened cleanliness standards will be enforced, and our team will disinfect all touch points between uses.

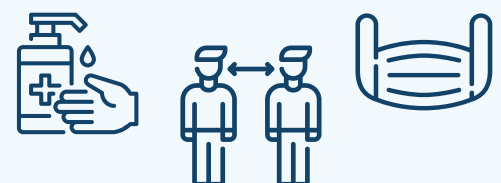

Ask our certified Digital Event Specialists (DES)

The Victoria Conference and Business Events Victoria team now includes numerous Certified Digital Event Specialists (DES). We understand the growing importance of successfully incorporating hybrid meeting elements into the framework of your existing in person meetings. We'd be happy to discuss further the opportunities and benefits to making this a reality for your group.

Victoria Conference Centre Operations

The staff at the VCC have been diligently making changes to our operations and creating protocols to safely welcome you into the facility. Complete documentation of our COVID prevention and cleaning protocols are available upon request. Some key initiatives include:

- Mandatory vaccine requirements
- Health screenings
- Mandatory masks
- Plexiglas barriers
- Increased touchpoints disinfection
- Nanoseptic self-cleaning surfaces
- Washroom occupancy displays
- Touchless hand sanitizer stations
- Disinfecting foggers

*Pricing valid until December 31, 2022. Online platform solutions available at additional cost.

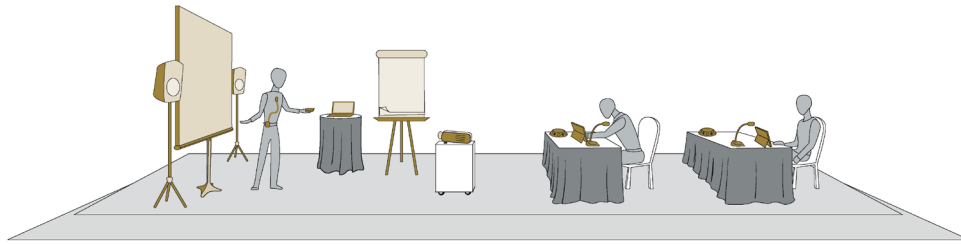

Victoria Conference Centre

VIRTUAL & HYBRID MEETING SOLUTIONS

Combine virtual and in-person event experiences at the Victoria Conference Centre. Our Business Events Victoria team will collaborate with planners to reimagine your special event, meeting and team building options. All rooms are set up with proper physical distancing protocols and state of the art technology solutions. Hand sanitizer stations are featured in key areas and colleagues servicing events will wear masks. Heightened cleanliness standards will be enforced, as our team will disinfect all touchpoints between events.

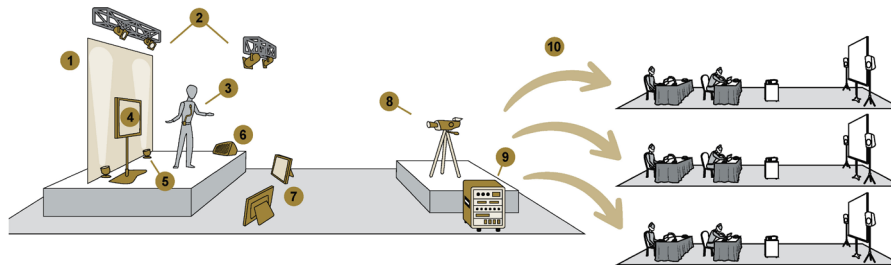

MEET SAFE DESIGN 1: ONE ROOM

Ideal for a smaller group meeting in a single room at one venue. With physical distancing in mind, screen placement, sound reinforcement and the ability to connect with others not able to physically attend will be key considerations.

MEET SAFE DESIGN 2: MULTI-ROOM, BROADCAST COMMUNICATION

Accommodates large groups that may need to be spilt into multiple rooms at the same venue. Building off the technology in design one, broadcasting to multiple rooms will be critical and the use of digital tools that support two-way collaborations will add to the experience.

MEET SAFE DESIGN 3: MULTI-ROOM / MULTI-VENUE, NETWORKED COMMUNICATION

For events that bring attendees from multiple venues and potentially multiple rooms together. The ability to have several presenters delivering messages to multiple audiences simultaneously will require a suite of technology solutions to make the experience feel as if everyone is meeting together as one.
